AMERICANS SELECT THEIR DELEGATES

First Primaries of Party Very Successful All Over the City.

LARGE CROWDS ATTEND DISTRICT MEETINGS

Interest and Enthusiasm Shown by Americans Prove Need of Movement.

The first district primaries ever held by the American party went along smoothly last night, and with the crowds and enthusiasm attending the primaries as a criterion, it is plainly evident that the American party is the most active and live party in the local field. The interest shown in the primaries reflects the citizens' view of the local situation most eloquently. Many new faces were seen in the large crowds which gathered at their respective voting places.

Prominent Men Present.

The chairmen of the meetings report that there was a healthy and confident air in all the places of meeting, and that there was one central idea about which the sentiment of the prominent citizens clustered, and that was the selecting delegates who would nominate a clean, winning ticket. The faces of many prominent Sult Lake business and professional men were seen among the voters for the first time at a primary, and the women attended in large numbers.

Thought to Be Wealthy.

It is thought that financial troubles, aggravated by excessive drinking, prompted Murphy to attempt the rash act. He has been in the city for several months, but only recently took accommodations at the Cullen hotel. He is known to be interested in several mining properties in the new Goldfield district of Nevada, as well as holding ground of a valuable character in Idaho, and was thought to be enjoying comparative affluence. ninth District-Eight delegates-L. He grew dally more morose, it is said, with the result that he yesterday attempted his life.

+++++++++++++++++++++++++ + SALT LAKE CITY IN 1906 +

The building of the Western Pa- + + cific, which will make it possible + + and prelitable to handle the mil- + + lions of tons of rich minerals that + will be produced in Nevada and + Western Utah during the next five + + years, promises to be a great boon + + for Salt Lake if the business men. + + the working-men, the professional + man, the teacher and the artisan, + + take advantage of the one thing that + + will give impetus to the city.

The conditions are ripe for speedy + ★ settlement of the local disturb ★ ances. It will never be easier to + make Salt Lake City an American + city than at the polls on the 7th + + of November.

If the American party candidates + + are elected the newspapers through + out the length and breadth of the + land will proclaim the fact that + Salt Lake's future has been as + + sured. Thousands of newspapers + + will advertise Salt Lake in their + editorial columns. The publicity + could not be purchased. The value + → of it will be worth hundreds of →
 → thousands. Americans will flock → + here by hundreds. The butcher, + the barber, the bootblack, the + boarding-house keeper, the day- + + laborer, the carpenter and builder, + + the trades everywhere, will be + + lifted from lethargy to prosperity

Property values will increase by leaps and bounds. The bringing to + + Sait Lake of outside capital will + + make it possible to make a modern + + city without increasing the tax- + + rate. Not a soul in this great + Western town would suffer be- + cause of the Americanizing pro-+ cess that would be worked out. + + The ecclesiastical grafters who are + + impoverishing their people would + + not find it so easy to amass great + → secret fortunes, it is true, but this → + would not injure the common peo- +

They do nothing toward + + improving this city and making de- + + mand for labor. They send their + + ill got gold out of Utah, out of the + United States! They sequester + their taxables and bear small por- + + tion of the burden of government! + Gentile citizens of Salt Lake:

Is it worth while to continue to + + trim with the politicians of the + + church?

HEWLETT NOT BALK CHURCH PLAN

Political Plans of Church Are Gradually Assuming Definite Shape.

LYNCH WILL HAVE FIELD TO HIMSELF

Many Prominent Men Mentioned for the Nomination on American Ticket.

The hieroglyphics which have graced the walls of the local political structure for over a week have at last become legible, and the suppositions which have been formed among politicians have proved to be correct. It remained for the official organ of the Mormon church to translate the writing on the wall, and people are not surprised. It announced that Frank J. Hewlett will not oppose Chief Lynch for the Republican nomination for Mayor. Knowing ones are agreed that this settles the matter as far as Hewlett is concerned

Will Hewlett Bow to Church?

While the friends of Mr. Hewlett will While the friends of Mr. Hewlett will not accept this announcement from the News with a very graceful air, it is not thought that he will permit them to over-exert themselves in his behalf against the wishes of the church. He wants the nomination with all the earnestness of an ambitious man, but it is thought he is too good a Mormon to directly oppose the political plans of his superiors in the faith.

Lynch Evidently Has Cinch.

Some of the friends of Chief Lynch are dvising against their man accepting the epublican nomination for the reason hat he should not be the church candi-ate, but others, especially those of the rmon faith, are not only most urgent Mormon faith, are not only most urgent that he run for the nomination, but they are positive he will receive it. The independent Republicans regard the Chief as Smoot-Cutler balt to eatch the Gentile vote. With Hewlett out of the way no one else is mentioned but Lynch. He apparently has a clear field and many favors in his behalf.

Democrats Not Celebrating.

Democrats Not Celebrating.

Democratr are far from satisfied with the turn out of their party members at the primaries Thursday night. In some instances no one turned out at all, at other places two or three were present and named a list of delegates somewhat inadvisedly in several cases. Some of the delegates named claim that they were not consulted by the Democrats as to the use of their names, and many will not attend the conventions at all. Several gentlemen called at American head-quarters during Friday and announced themselves as anxious to be put down as Americans, and as delegates to the American ward and city conventions if possible. Tom Marshall, J. H. Hurd and Dr. Douglas were named as delegates without their consent. their consent.

Turn Democrats Down.

Capt. C. R. Berry, C. H. Dowse, H. E. Schiller and Miss Mae Berry are among the members of the American party whose names were used without authority as delegates to the Democratic ward and city conventions. Last evening all four of these attended the American party primary in the Ninth district, and wanted it understood that they were Americans first, last and all the time, and all were elected delegates to the American party ward and city conventions.

Capt Berry made a brief speech at the American primary last night, in which he denounced the action of the Democrats, and said it was un-American and would

and said it was un-American and would not be countenanced by him under any consideration. "I believe in Uncle Sam," said Capt.
Berry, "and in his laws. I propose to
uphold those laws and to vote for the
only true American ticket, the one that
will be named at the Grand theater on
September 25, and that will be elected in
November next."

Tired of Church Ownership.

One Democrat said yesterday: "We are tired of Sait Lake Democracy and church ownership of both the old parties. We are Americans clear through, and in-tend to stand by the American party,' Republicans Complaining.

Republicans Complaining.

Among the thinking and independent Republicans there is considerable dissatisfaction in regard to the plan of apportionment selected by the city committee of the Republican party. This committee refused to take the vote as cast for Knox at the last city election as a basis of present representation, but went back to the time Ezra Thompson ran four years ago. This was done, so it is said because in certain localities the districts went back on Knox because the church ordered it, consequently their representation under the Knox vote would give them entirely too few delegates to suit the manipulators.

Mormons in the Saddle. Mormons in the Saddle.

Mormons in the Saddle.

The Third ward, for instance, mostly Mormon, and former supporters of Morris, slips in now with more delegates under the pian of apportionment than the strong Republican Gentile districts which have stood by their colors all the way through. "The Mormons have us going and coming." is the way some Gentile Republicans have worded it. There are many Republicans coming over to the American party simply because the church party yoke has become a little too much for their ideas of what constitutes true American citizenship.

Many American Candidates

Many American Candidates.

From the number of prominent men being boomed by their friends for places on the American ticket, it is evident that the several conventions will have plenty of work to do, and plenty of excellent material to work with. The nomination for Mayor on the American ticket lies with one of the following. Ezra Thompson, H. G. McMillan, J. W. Houston and M. H. Walker. Americans for Treasurer

A boom for several candidates for City Treasurer was started yesterday by their friends. Those mentioned are Frank Swenson; W. F. Adams, cashler of the National Bank of the Republic; A. H. Peabody, assistant cashler of the Com-mercial National bank; E. O. Howard, teller of Walker's bank. City Recorder.

For City Recorder the Americans have a fine list of possible candidates in J. B. Moreton, G. W. Parks, former Receiver of the Land office under President Cleve-land; Angus McKellar and Frank Mathews. For Auditor.

For City Auditor, Rudolph Aiff, B. S. Rives, F. H. Clark and Frank Swenson have been mentioned.

City Attorney. The City Attorney's nomination lies be-tween the following gentlemen: Judge Ogden Hiles, Judge C. S. Varian, Frank B. Stephens, W. R. White and H. J. Dininny.

YOUNG MEN WEARY OF LIFE ON WAVE

Projected Cruise on Great Salt Lake Ends Rather Quickly.

L. S. Dickinson, Fred Daschrell and Tom Doles, popular young men of town are home from their trip on Great Salt lake. Thursday evening they started out for a cruise over the lake in the launch "Trusty Mag," from Sultair.

Prepared for Cruise.

The boys had made extensive preparations and had the little old boat well
loaded with supplies, solid and liquid, to
satisfy the appetite and thirst the salt
breeze would create. They told friends
they would make a complete cruise
around the inland sea and that they
might not expect to gaze upon their countenances for several days. Tuesday was
set as a date for their return.

Came Back Soon.

Came Back Soon. Last night, however, a tired, dilapidated appearing trio arrived in town on the Saltair train, and upon close inspection proved to consist of L. S. Dickinson, Fred Daschrell and Tom Doles. The trip was brought to a sudden end through the exhaustion of supplies, especially the second named.

There was considerable talk Thursday on the streets that M. M. Atwood and Heber Ivorsen would be probable candidates before the Republican ward convention for City Council from the First ward. City Committeeman Eardley and Charles Cottrell may be brought before the Republican convention in the Second ward for the Council. Republicans in the Fourth ward have mentioned the name of James Sabine for Council, and it is thought that William C. Spence might be prevailed upon to accept the nomination. In the Fifth the names of H. B. Clawson and Joseph Felt have been persistently mentioned for Council by the Republicans.
